

## Project Description

A link shortener and link sharing platform that allows users to share links and get a shortened link.

### Home

This is the landing page. It shows top short links and most popular links on the site.

### Link

The page shows details of a link and its comments, with the ability to edit and delete.

### Login

The page is used to log in.

## User Personas

**Alice:** an internet surfer who likes to save and share links, preferably in a shortened link form.

**Bob:** a user who likes to comment on things.

## User Stories

- As Alice, I want to visit the website and see a home page with latest links and most popular links.
- As Alice, I want to be able to log in.
- As Alice, I want to be able to log out.
- As Alice, I want to see the links I created on the home page when logged in.
- As Alice, I want to create new short links with a description and tags.
- As Alice, I want to edit links I created.
- As Alice, I want to delete links I created.
- As Alice, I want to visit a short link and land in the corresponding website.
- As Bob, I want to click a link card and see details about the link.
- As Bob, I want to comment on links shared on the platform.
- As Bob, I want to edit comments I posted.
- As Bob, I want to delete comments I posted.
